

Recycling Of Used Grease Learn More Below

SRS GLOBAL TRADING

We recycle waste materials by reprocessing them into products, materials, or substances to be utilized for other purposes. SRS is a holder of a waste management licence issued by the Department of Forestry, Fisheries, and the Environment (DFFE). Used grease is collected from customers, sorted, and recycled by purifying it into Grade B grease through application of four (4) stage processing machines.

Grade B Grease Application:

Suitable for general purpose external use for lubricating:

- Dipper handles
- Track chains on crawlers
- Wheelbarrow axles
- Fifth wheel plates for semi-truck trailer connections
- General greasing for corrosion control
- Ploughs

Used Grease Before Recycling:

Benefits of Recycling Used Grease:

- Its environmentally friendly
- Conservation of landfill space
- Reduced human health hazards

Used Grease Output From The Recycling Machine:

Used Grease After Recycling:
